

Free Coding 101 Workshop

In Meridian, Idaho

Are you interested in a career in software development? Start here! This 3-hour workshop is the perfect place to figure out if it's for you. You'll get a sneak peek into what a career in coding involves, plus a taste of the LeapFox Code School experience.

By the end of this workshop you will:

- Understand the basics of what it means to be a professional software developer
- Discover what development languages are in most demand today
- Learn developer tools of the trade
- Learn how to set up the Visual Studio development environment
- Get started programming with C#
